Ergo-Express® Motorized Patient Transport Chair

Nursing, transport staff, medical technicians, and volunteers are faced with transporting patients multiple times a day with manual wheelchairs. Now there is a better way! The Ergo-Express® Motorized Patient Transport Chair virtually eliminates injuries related to manual transport of patients.

Benefits

The Ergo-Express® Motorized Patient Transport Chair has a weight capacity of 750 pounds. This takes care of the vast majority of ambulatory patients who can physically sit up. The Ergo-Express® Motorized Patient Transport Chair allows for zero push or pull effort when transporting any patient. The power drive assists with long distance transport, especially when ramps, carpet and thresholds are encountered.
