

ERGO-EXPRESS® Motorized Server Rack Tug

Transport heavy server equipment safely and efficiently.

Our Mission

PHS West is a relationship focused organization providing innovative products for a safe and efficient workplace.

Our philosophy goes far beyond selling a product. I work hand-in-hand with our customers, learn about their specific challenges, and help design the right solution to fit their needs and budget.

Motorized Server Rack Tug

The Ergo-Express® Motorized Server Rack Tug has changed the way data center teams manage rack movement within their facilities. Moving server racks previously required multiple team members manually maneuvering several thousand pounds of equipment. The Motorized Server Rack Tug eliminates this process by allowing a single operator to safely transport a server rack.

BENEFITS

With a Motorized Server Rack Tug, data center team members can perform server installation and decommission without risking an injury. The power drive system eliminates all push or pull force requirements, and the added stability mitigates any tip hazard.

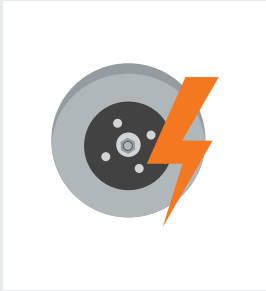

Enabling a single operator to easily transport server racks provides extraordinary boosts to efficiency and productivity. Increase output with less staff and time; the Motorized Server Rack Tug keeps up with the ever-growing scale of data centers.

Ergo-Express® Motorized Server Rack Tugs

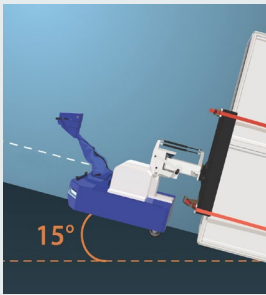

SAFETY FEATURES

Each aspect of the Motorized Server Rack Tug is designed with safety as the utmost priority.

Power Drive System

The Motorized Server Rack Tug does all of the hard work so you do not have to. Move up to 5,000 pounds with zero push or pull force.

Increased Stability

Allow a single operator to tow full server racks without the risk of tipping. Mitigate tilt hazard stemming from inclines, broken casters or uneven flooring.

TESTIMONIALS

"The Ergo-Express® Motorized Server Rack Tug is one of the best investments our organization has ever made. The tug is an integral piece in our day-to-day operations; I do not know how we managed before it came about."

-EMPLOYEE HEALTH AND SAFETY MANAGER

"Ergo-Express® Motorized Server Rack Tugs have been essential to our team's functionality. This product has allowed us to increase output without having to increase our staff. We will never operate without one again!"

-DATA CENTER LOGISTICS MANAGER

SEAMLESS INTEGRATION

These qualities combine to provide maximum ease-of-use and efficiency.

GLOBAL CERTIFICATION

Globally certified with universal charging, implementing the Motorized Server Rack Tug is seamless at any location.

DUTY CYCLE

The solution to fit any schedule. Get eight hours of continuous use on a single charge.

UNIVERSAL FIT

Our hitch plate and straps offer flexibility for use with any rack design.
